

Virginia Green Lodging Profile:

Woodlands Hotel & Suites Williamsburg, Virginia

Virginia Green is the Commonwealth of Virginia's campaign to promote environmentally-friendly practices in all aspects of Virginia's tourism industry. **Virginia Green** has established "core activities" specific to each sector of tourism, and these practices are considered the required minimum for participation in the program. However, **Virginia Green** encourages its participants to reduce their environmental impacts in all aspects of their operations; and this profile provides a full list of all their "green" activities. These are the activities that guests / customers can expect to find when they visit this facility.

Woodlands Hotel

"A family hotel with recreational facilities; continental breakfast included; walk or shuttle to the Colonial Williamsburg Historic Area; 300 guest room."

Green Statement: "Most Colonial Williamsburg facilities have a long standing tradition of being sensitive to the environment so the idea of going Green has really been part of our culture for years."

CORE ACTIVITIES for Lodging

“☑” This symbol indicates a required activity for Virginia Green Lodging facilities. Participants self-certify that these activities are in place and they provide additional specifics on other activities. Visitors to **Woodlands Hotel** can expect the following practices:

☑ **Optional Linen Service.** Virginia Green Lodging facilities must have some sort of system in place that allows guests to not have their sheets and towels changed every day. This facility pledges that they:

- Change linens only upon request
- Train house cleaners on process for optional linen service
- Use linens service providers that employ "wet" versus "dry" cleaning

☑ **Recycling and Waste Reduction.** Virginia Green Lodging facilities must recycle and are highly encouraged to maintain a comprehensive recycling program. This facility pledges that they:

- Recycle: glass, aluminum cans, office paper, toner cartridges, newspaper, cardboard, packing supplies, fluorescent lamps, batteries, electronic equipment, phone books, rags and magazines
- Clearly marked recycling bins in parking lots
- Track overall waste bills
- Instruct housekeeping to save and reuse unopened items
- Recycle fryer grease and/or filter grease prior to recycling
- Have an effective food inventory control to minimize waste
- Purchase locally grown produce and other foods
- Do not use Styrofoam
- Use reusable dishware and glassware, and minimize use of disposables
- Use water pitches and filtered water to minimize the use of single-use bottles
- Use screen based ordering system

- Use bulk soap dispensers in public restrooms
- Purchase recycled-content paper towels and toilet paper
- Use a last-in/first-out inventory and labeling system
- Encourage suppliers to minimize packaging and other waste materials
- Purchase from vendors and service providers with a commitment to the environment
- Make 2-sided copies/ printed materials
- Use electronic correspondence and forms
- Purchase durable equipment and furniture
- Purchase low VOC carpets and fabrics
- Use latex paints
- Properly recycle/dispose of thinners and solvents
- Perform preventative maintenance on all appliances, HVAC systems, plumbing, and vehicles
- Use less toxic materials
- Use integrated pest management (IPM)
- Minimize the use of pesticides and herbicides

☒ **Water Conservation.** The facility must have a plan for conserving water that should consider plumbing modifications and landscaping. This facility pledges that they:

- Track overall water usage and wastewater
- Have a numeric goal to reduce water consumption over time
- Perform preventative maintenance to stop drips and leaks
- Use water-flow metering to discover leaks and areas of high use
- Have:
 - low flow restrictors on faucets and showerheads
 - low flow toilets
- Discourage water-based cleanup (sweeping first)
- Have an effective landscape management plan
- Have an effective stormwater management plan including minimization of impervious areas (paving, concrete, etc)
- Maintain vegetative buffers around streams and ponds

☒ **Energy Conservation.** The facility must have a plan in place that encourages replacement of lighting and equipment to energy-efficient alternatives. This facility pledges that they:

- Track overall energy bills
- Have had an energy audit to identify efficiency opportunities
- Have a numeric goal of how much they want to reduce their energy usage over time
- Have an "energy management system" in place to track and meter energy usage
- Use:
 - compact fluorescent light bulbs in all rooms and in canned lighting
 - high efficiency fluorescent ballasts and lamps (T5s and T8s)
- Have high efficiency heating & air conditioning (HVAC) systems
- Perform preventative maintenance on HVAC system
- Have individual thermostats for each room/area
- Use natural lighting
- Have thermal-rated windows and insulation
- Use directional (downward-facing) lighting in parking areas and other outdoor areas
- Use fuel efficient vehicles or hybrid vehicles

☒ **Green Events Package.** The facility must offer a "green" or "environmentally-friendly" package for conferences, meetings and other events. Even if the facility only offers occasional, small events, at least recycling will be provided. This facility pledges that they:

- Promote the availability of "green meetings/conferences" in marketing packages
- Provide recycling, eliminate use of Styrofoam, minimize use of printed materials, recycled content, soy based inks, two-sided copying and reduce overall wastes
